INTRODUCTION

Multiverse Studio, Inc. is a full-service, one-stop solution to custom designed physical products for marketing, promotion, and retail use.

Founded as a design firm to provide unique product design services to the collectible toy industry, we have grown into a cross-industry platform that bridges manufacturers, clients, and consumers through creativity. We pride ourselves in accuracy and expediency of our services as well as our wide range of capabilities and competitive pricing.

CLIENTS & PARTNERS

We work with many of the largest and most renowned companies in the entertainment and gaming industry, utilizing state-of-the-art processes, equipment, and technology. We take pride in creating strong, lasting relationships with our clientele.

OUR SERVICES

Multiverse Studio, Inc. is a full-service, one-stop solution to custom designed physical products for marketing, promotion, and retail uses.

Founded as a design firm to provide unique product design services to the collectible toy industry, we have grown into a cross-industry platform that bridges manufacturers, clients, and consumers through creativity. We pride ourselves in accuracy and expediency of our services as well as our wide range of capabilities and competitive pricing.

CONCEPT DESIGN & DEVELOPMENT

Our designers and artists utilize state-of-the-art techniques and tools to accurately depict the products in order for us to ensure what you have in mind matches the finished product.

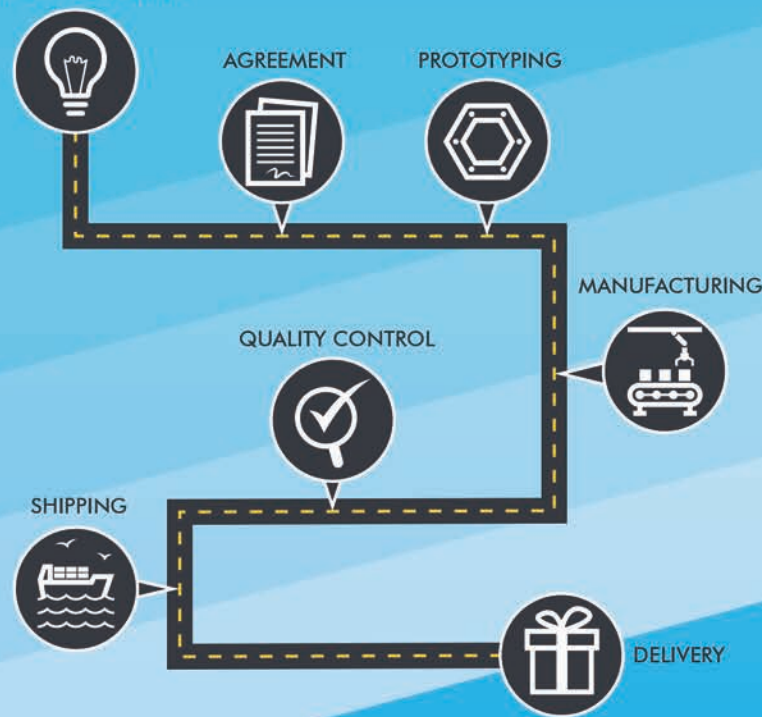

WORLDWIDE & REGION SPECIFIC IMPORT / EXPORT LEGAL COMPLIANCE

Our logistics experts have over 15 years of experience in dealing with safety and legal compliance of almost all the countries and regions globally. We continually monitor the international trade industry as an added value service to our clients.

PRODUCTION TIMELINE

We offer accurate and expedient production services at competitive pricing. With proprietary factories, sourcing channels, and freight forwarding agents, we can ensure complete control over all aspects of design, production, and transportation. Although exact production details differ between projects, the general process remains the same.

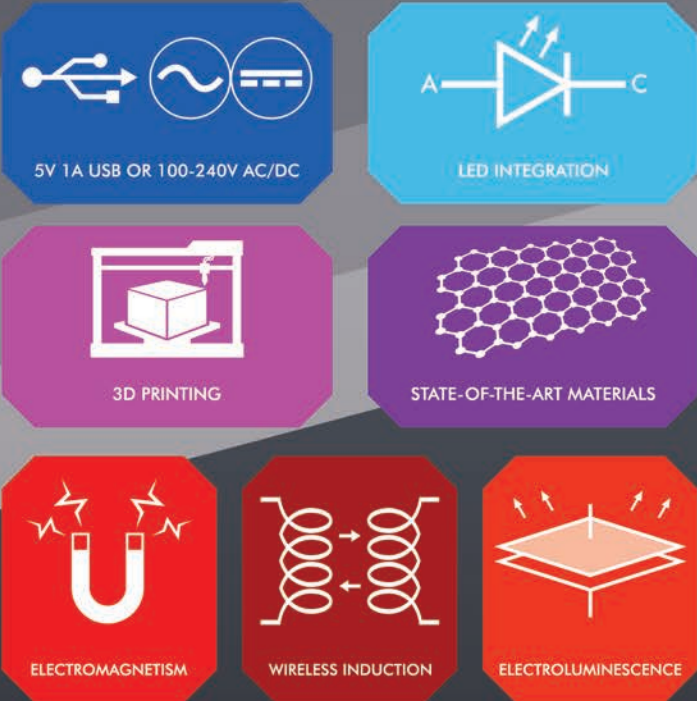

CONCEPTUALIZATION

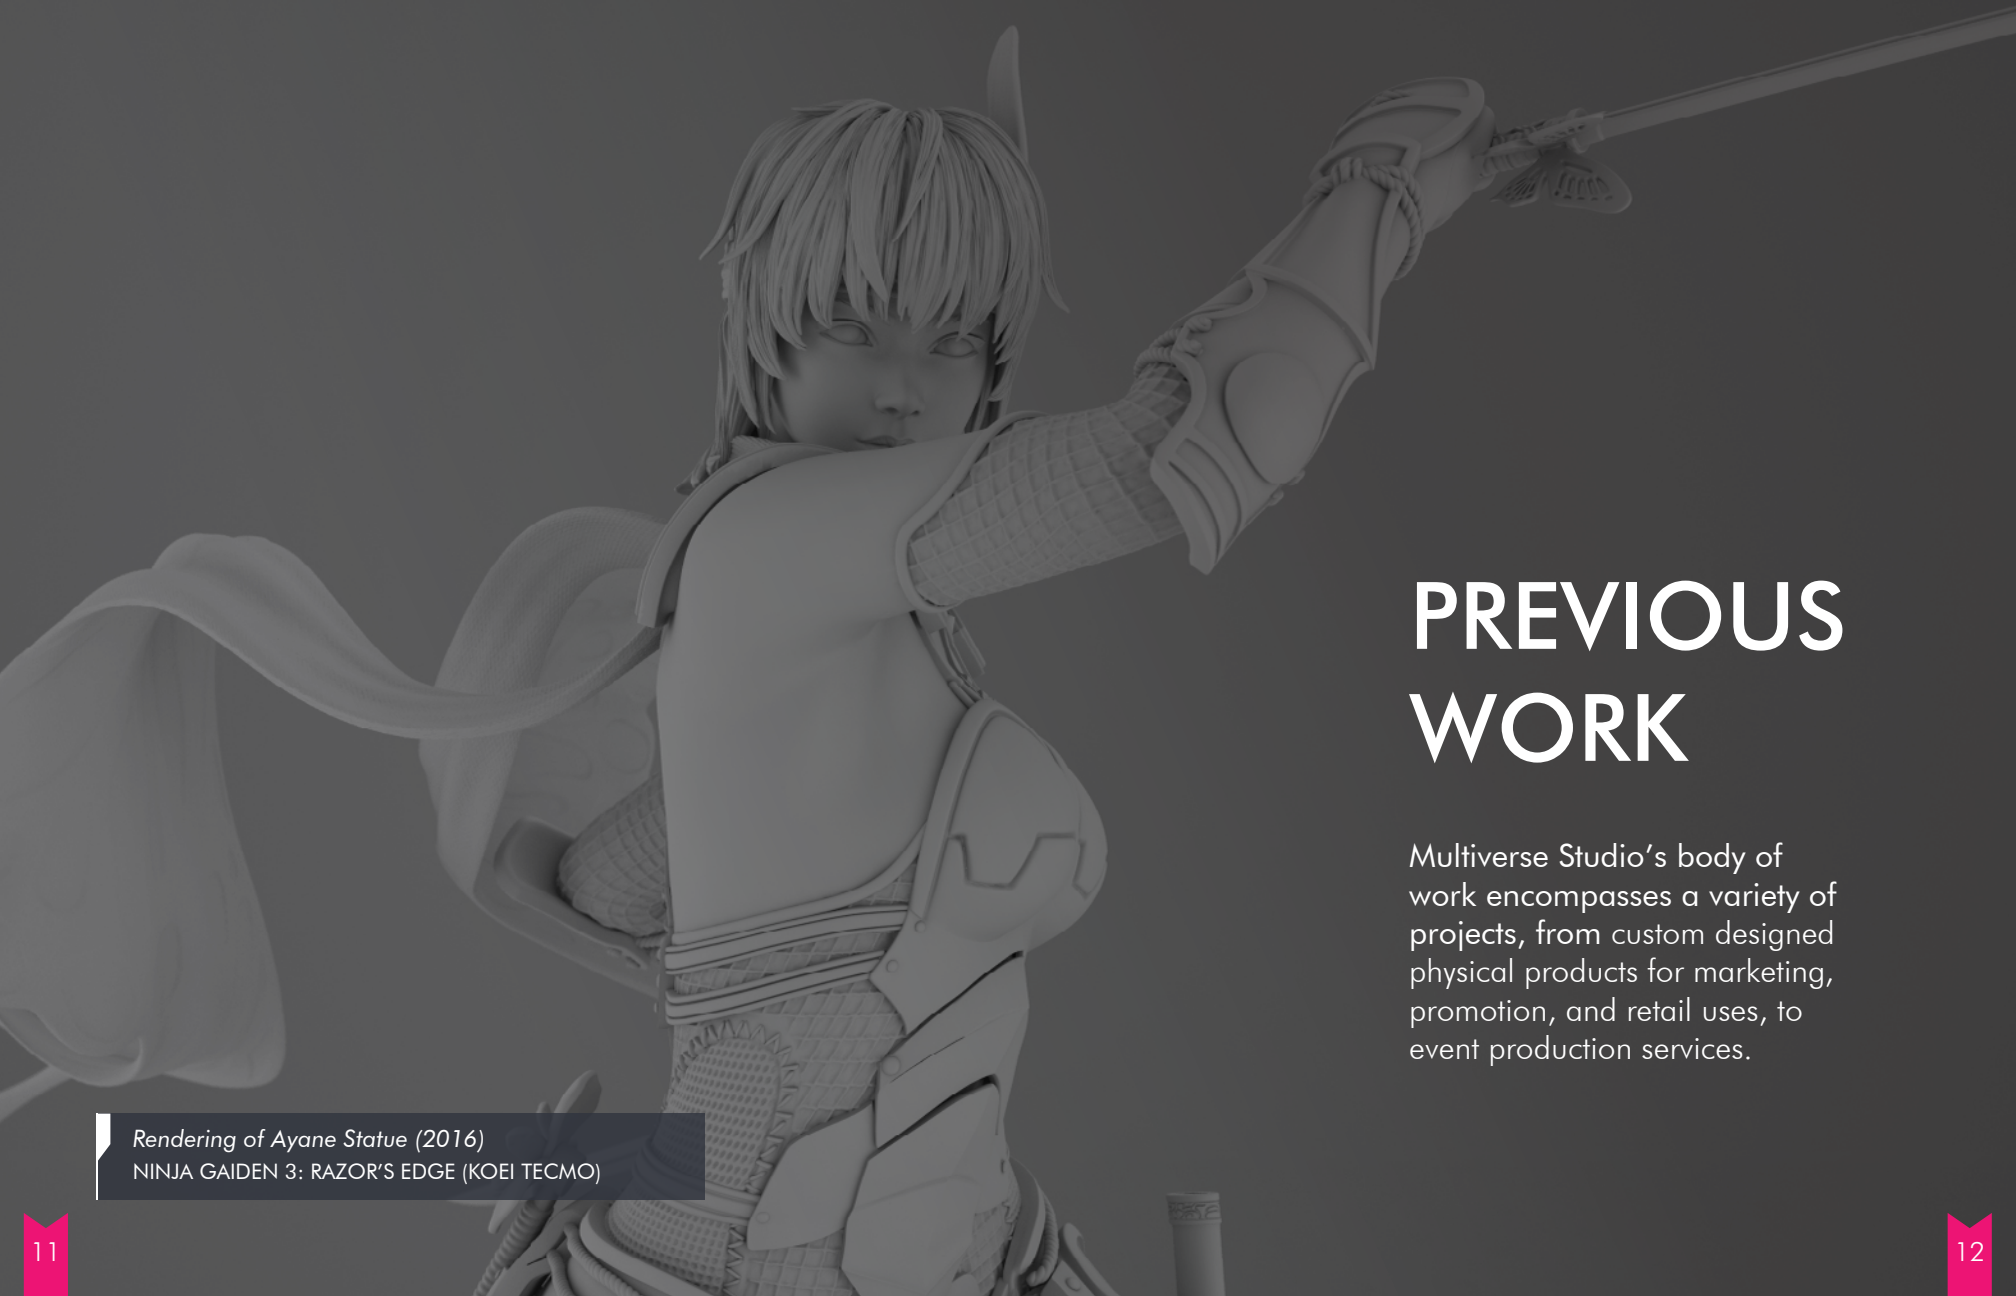

INNOVATIVE TECHNOLOGIES

With over ten years of conceptual, production, and design experience, we are the pioneers of integrated technology and mixed-media effects in consumer collectibles.

Many of our products incorporate LEDs, power via 5V 1A USB or standard 100-240V AC (US standard wall plug), wireless induction charging, electromagnetism, and more.

PREVIOUS WORK

Multiverse Studio's body of work encompasses a variety of projects, from custom designed physical products for marketing, promotion, and retail uses, to event production services.

1:1 SCALE PROPS & REPLICAS

Our life-sized props and replicas are expertly crafted from a wide variety of materials, including polystone resin, ABS & PVC plastics, fiberglass, silicone latex, fabrics, and more.

When accentuated with cutting-edge technologies and masterfully painted applications, these extremely detailed pieces are imposing and incredibly realistic to all who witness them.

MEGA MAN
Proto Man Helmet - Unreleased Prototype

A close-up photograph of a white collectible figure, likely a character from the Tokyo Xanadu EX+ series. The figure is wearing a white garment with black straps and buckles. A sword hilt is visible on the left side. The background is dark and out of focus.

PREMIUM QUALITY COLLECTIBLES

Multiverse Studio has produced high-quality, officially licensed collectible statues and figures for many of the most renowned companies in the video game industry.

With dynamic poses and presentation, ultra-realistic detailed paint effects and technological innovation, we have set the standard for collectible consumer products for the last decade.

CONSUMER COLLECTIBLES

In addition to our high-end collectibles, we also produce consumer-grade products. Available as promotional or retail items, our plush and plastic products appeal to a wide variety of age groups.

We are expert crafters in all forms of traditional media, and have worked extensively with PVC and ABS plastics, polystone resin, and various fabric types. We only use the highest quality components that are compliant with all international safety standards.
